Contents Volume 197 (1997)

Can immobilization of *Bacillus megaterium* cells in alginate beads protect them against bacteriophages?
G. Zayed **1–7**

Generation and visualization of root-like structures in a three-dimensional space
L.Y. Spek **9–18**

Isolation and identification of N_2-fixing microorganisms from the rhizosphere of *Capparis spinosa* (L.)
G. Andrade, E. Esteban, L. Velasco, M.J. Lorite and E.J. Bedmar **19–23**

The effects of external magnesium concentration on the growth and magnesium inflow rates of micropropagated cherry rootstocks 'F.12/1' (*Prunus avium* L.) and 'Colt' (*Prunus avium* L. × *Prunus pseudocerasus* L.)
Y.E. Troyanos, N.A. Hipps, J. Moorby and M.S. Ridout **25–33**

River and lake sediments as sources of infective *Frankia (Alnus)*
K. Huss-Danell, D. Uliassi and I. Renberg **35–39**

Utilization and leaching of nitrate from two *Deschampsia*-dominated heathland sites: a lysimeter study using intact soil columns
S.R. Troelstra, R. Wagenaar and W. Smant **41–53**

Effects of colony nesting of *Adrea cinerea* and *Egretta alba modesta* on soil properties and herb layer composition in a *Pinus densiflora* forest
H.T. Mun **55–59**

Effects of long-term soil acidification due to nitrogen fertilizer inputs in Wisconsin
P. Barak, B.O. Jobe, A.R. Krueger, L.A. Peterson and D.A. Laird **61–69**

Zinc and cadmium uptake by the hyperaccumulator *Thlaspi caerulescens* in contaminated soils and its effects on the concentration and chemical speciation of metals in soil solution
B. Knight, F.J. Zhao, S.P. McGrath and Z.G. Shen **71–78**

Rooting patterns in near-isogenic lines of spring wheat for dwarfism
D.J. Miralles, G.A. Slafer and V. Lynch **79–86**

The effect of NaCl stress and relief on gas exchange properties of two olive cultivars differing in tolerance to salinity
M. Tattini, L. Lombardini and R. Gucci **87–93**

Effects of mycorrhizal infection on drought tolerance and recovery in safflower and wheat
D.R. Bryla and J.M. Duniway **95–103**

Field screening of barley cultivars to soil salinity using a sprinkler and a drip irrigation system
R. Isla, A. Royo and R. Aragüés **105–117**

Interactions of water, mulch and nitrogen on sorghum in Niger
C.G.L. Zaongo, C.W. Wendt, R.J. Lascano and A.S.R. Juo **119–126**

The diagnosis and recommendation integrated system (DRIS) for diagnosing the nutrient status of grassland swards: I. Model establishment
J.S. Bailey, J.A.M. Beattie and D.J. Kilpatrick **127–135**

The diagnosis and recommendation integrated system (DRIS) for diagnosing the nutrient status of grassland swards: II. Model calibration and validation
J.S. Bailey, A. Cushnahan and J.A.M. Beattie **137–147**

Effects of wheat volunteers and blackgrass in set-aside following a winter wheat crop on soil infectivity and soil conduciveness to take-all
A. Dulout, P. Lucas, A. Sarniguet and T. Doré **149–155**

Seasonal dynamics of nutrients in leaves and xylem sap of coffee plants as related to different soil compartments
M. Bundt, S. Kretzschmar, W. Zech and W. Wilcke **157–166**

Relationship between decomposition of cellulose in the soil and tree stand characteristics in natural boreal forests
A.-M. Kurka and M. Starr **167–175**

Effects of white clover (*Trifolium repens* L.) on plant and soil nitrogen and soil organic matter in mixtures with perennial ryegrass (*Lolium perenne* L.)
A. Elgersma and J. Hassink **177–186**

Interactions between white clover and ryegrass under contrasting nitrogen availability: N_2 fixation, N fertilizer recovery, N transfer and water use efficiency
H. Høgh-Jensen and J.K. Schjoerring **187–199**

Influence of pastoral fallow on plant root growth and soil physical and chemical characteristics in a hill pasture
Z.N. Nie, A.D. Mackay, I. Valentine, D.J. Barker and J. Hodgson **201–208**

Mechanical resistance by an ectorganic soil layer on root development of seedling *Pinus sylvestris*
J. den Ouden and D. Vogels **209–217**

Water and nutrient conservation through the use of agroforestry mulches, and sorghum yield response
Y. Tilander and M. Bonzi **219–232**

Crop uptake and leaching of ^{15}N applied in ruminant slurry with selectively labelled faeces and urine fractions
I.K. Thomsen, V. Kjellerup and B. Jensen **233–239**

Effects of sulphate and pH on the plant-availability of phosphate adsorbed on goethite
J.S. Geelhoed, W.H. Van Riemsdijk and G.R. Findenegg **241–249**

Rhizosphere microflora of winter wheat plants cultivated under elevated CO_2
D. Elhottová, J. Tříska, H. Šantrůčková, J. Květoň, J. Šantrůček and M. Šimková **251–259**

Nitrogen mineralization and denitrification as influenced by crop residue particle size
P. Ambus and E.S. Jensen **261–270**

Dynamics of nutrient remobilisation from seed of wheat genotypes during imbibition, germination and early seedling growth
M. Moussavi-Nik, Z. Rengel, J.N. Pearson and G. Hollamby **271–280**

Erratum **281**

Volume contents **283–285**

Author index **286**
